

**Kwaver helps musicians
collaborate using just
their phone.**

Kwaver's matching algorithm connects you with other musicians who share your same musical style and can collaborate with just two taps. Think of a guitarist in London, collaborating with a vocalist in New York in just 30 seconds. A new song is born.

TEAM

Brendan Borg, Co-Founder & CEO

Brendan is passionate about how technology can change the music songwriting process. He's responsible for the smooth running of Kwaver and innovating features you see on Kwaver.

Clint Tabone, Co-Founder & CDO

Clint keeps an eye (and ear) on the design and experience side of Kwaver. He also assists Brendan and Jimmy in reaching a wider audience of users.

James Zammit, Co-Founder & CTO

James turns chords into code. He oversees the technical side of things and makes sure the app doesn't miss a beat.

Jimmy Bartolo, Music Community Evangelist

Jimmy is Kwaver's voice for our community of musicians. He juggles between fretboard and keyboard and is the one reaching out to our users whether to improve our app or for a quick jam.

TIMELINE

- Nov 2016** Attented Web Summit in Dublin
